

EDUCATION

- 2019 - Present **Ph.D. in Computer Science** — Northwestern University
Advisor: Prof. Samir Khuller
- 2017 - 2019 **Master of Science in Computer Science** — The University of Maryland, College Park
Advisor: Prof. Samir Khuller
- 2014 - 2018 **Master of Engineering in Computer Engineering** — Kasetsart University (Thailand)
Advisor: Prof. Jittat Fakcharoenphol
- 2009 - 2013 **Bachelor of Engineering in Computer Engineering** — Chulalongkorn University (Thailand)

RESEARCH INTERESTS

Algorithms, Approximation Algorithms, Combinatorial Optimization, Connectivity, Dynamic Graphs, Graph Theory, Scheduling

PUBLICATIONS & MANUSCRIPTS

S. Bhattacharya, S. Saranurak, **P. Sukprasert**. **Simple Dynamic Spanners with Near-optimal Recourse against an Adaptive Adversary**. Preprint (under submission to ESA'22).

P. Chalermsook, C. Huang, D. Nanongkai, T. Saranurak, **P. Sukprasert**, S. Yingchareonthawornchai. **Approximating k-Edge-Connected Spanning Subgraphs via a Fast Linear Program Solver**. *The 49th EATCS International Colloquium on Automata, Languages and Programming, 2022*.

S. Ahmadi, **P. Sukprasert**, R. Vegesna, S. Sinha, F. Schischilk, N. Artzi, S. Khuller, A.A. Schaffer, E. Ruppín. **The landscape of receptor-mediated precision cancer combination therapy via a single-cell perspective**. *Nature Communications 13.1 (2022)*.

P. Chalermsook, S. Khuller, **P. Sukprasert**, S. Uniyal. **Multi-transversals for Triangles and the Tuza's Conjecture**. *Proceedings of the Thirty-First Annual ACM-SIAM Symposium on Discrete Algorithms. Society for Industrial and Applied Mathematics, 2020*.

J. Fakcharoenphol, **P. Sukprasert**. **An $n^{O(1/\epsilon)}$ Approximation Scheme For The Minimum Dominating Set In Unit Disk Graphs**. *2018 15th International Joint Conference on Computer Science and Software Engineering (JCSSE). IEEE, 2018*.

J. Fakcharoenphol, B. Lekhanukit, **P. Sukprasert**. **Finding All Useless Arcs in Directed Planar Graphs**. *arXiv preprint arXiv:1702.04786 (2017)*.

WORK EXPERIENCE

Research Intern — Adobe June 2021 - September 2021

Software Engineer Intern — Quora June 2019 - September 2019

- Developed Quora mobile apps on both iOS and Android.

Research Intern — Aalto University in Finland May 2018 - August 2018

- Worked on fast approximation algorithm for connectivity problems.

Language Operation Engineer Oct 2016 - August 2017

— Google Singapore (under contract with The Optimum Solutions)

- Developed crowd-sourcing tools for data collection purpose of different Natural Language Processing tasks.

Language Operation Engineer June 2015 - June 2016

— Google Thailand (under contract with Kelly Services Staffing)

- Worked on Natural Language Processing tasks, especially data collection tools, for different languages.

Application Engineer — The Stock Exchange of Thailand May 2013 - Apr 2014

- Developed an online stock trading system *Streaming* used by millions in Thailand.

RELEVANT ACTIVITIES

Teaching Experience

CS 336 Design & Analysis of Algorithms	— Northwestern University	Spring 2020
CMSC 132 Object-Oriented Programming II	— University of Maryland	Spring 2019
CMSC 451 Design and Analysis of Computer Algorithms	— University of Maryland	Fall 2018
CMSC 122 Intro to Programming via the Web	— University of Maryland	Fall 2017 and Spring 2018
Computers & Programming class	— Kasetsart University (Thailand)	2014
International Olympiad in Informatics (IOI) Training Camp		2013 - 2017
— The institute for the Promotion of Teaching Science and Technology (Thailand)		
Taught algorithms and data structures to high-school students and prepared the problem sets for selecting the Thai team for IOI.

Community Services

STOC 2021	June 2021
Student volunteer - Helped making talks available online.	
STOC 2020	June 2020
Student volunteer - Be a technical host for a conference session as well as made talks available online.	
ALGO 2018	— Finland August 2018
Member of the organizing committee - Developed and implemented a software solution used as the conference's timer.	
ACM-ICPC	— Thailand 2012 - 2016
Prepared problem sets and managed an online-judge system of several ICPC programming contests held by Universities in Thailand. The latest one was ACM-ICPC Asia Bangkok Regional Contest 2016.	
Thailand Code Jom	— NECTEC and Kasetsart University (Thailand) 2013 - 2014
Prepared problem sets for Thailand Code Jom, an annual national programming contest for high-school and undergraduate students.	
The 23rd International Olympiad in Informatics	— Thailand 2011
Volunteer - organized the event and looked after international contestants from 78 countries around the world.	

AWARDS

Dean's Fellowship	2017 - 2018
ACM-ICPC Asia Phuket Regional	- 7 th place 2011
ACM-ICPC Thailand National Contest	- Three times winner 2010 - 2012
IEEEExtreme 5.0	- Grand prize winner 2011
Asia-Pacific Informatics Olympiad	- Bronze Medal 2009
